Publish or archive a student paper, essay or degree project in DiVA

According to decision, Rutiner och ansvarsförhållanden för självständigt arbete (examensarbete) vid Högskolan i Halmstad, the student is responsible for:

- submitting the approved graduated thesis to the examiner in pdf format,
- register metadata and upload the approved digital essay in DiVA and, at the time of registration, state whether the essay may be displayed publicly and on the Internet
- approve the digital publishing agreement,
- that the necessary consent for publication on the Internet is obtained in cases where the essay contains copyrighted material produced by anyone other than the student.

After submitting your paper

When you have submitted your paper it has to be approved by an administrator at your school/department before it can be published and publicly visible. Therefore you will not be able to see your paper immediately after you have registered it.

Thank you for registering this item.
The record has now been saved in the system.
If you cannot immediately see your publication in DiVA the delay is because it has to be checked first by a librarian or an administrator.

Remember to send a copy of your approved paper to your examiner in PDF-format.

Should you discover any errors in your registration you need to log in to HH:s Heldpdesk and open up a ticket. You can also use this contact form to send your request.
